

**FDP conducted on " Communication Systems Engineering with Special emphasis on Digital Communication Engineering" in School of ECE on 9th March 2016**

A Competency Development Program was arranged by Prof. Jayaraman in Room Number 213 at 2PM on "Communication Systems Engineering with Special emphasis on Digital communications Engineering".

All the faculty attended the FDP. A insight was given how the communication system can be designed in real time environment. What are the constraints required or must be taken into consideration while designing a system. A brief introduction about various applications in automation engineering as a career and job prescriptive. The course content should be mapped with job requirements, so that students can understand the importance of the course.

After the end of session, feedback was collected from the faculty. The FDP ended with thanks giving by Prof. Jayaraman
