Profile:

Ms. Manusha Khandula is currently working as a Data Analytics at Wilmington PLC, London. She has good experience in the same field. Prior to this, she worked in various

companies under the same role. She has enrolled herself in MS (Data Analytics) from Hertfordshire University, the U.K. she is holding a master's degree in MBA – Finance and HR from REVA University. She is a national-level Kabaddi player & volunteered for various social activities. She was vice president of the Dance & Drama Society from 2013-to 15.

. Session Highlights:

The Alumni talk and interaction commenced with a welcome address delivered by Dr. Ruchi Gupta, the organizer of the event. She introduced the profile of the Alumni, who was a student of MBA batch 2016 – 18.

Manusha started the session by introducing the topic Data Analytics, which is very broad by term. She spoke about the industry expectations from our MBA freshers and guided the MBA students about the proactiveness required to prepare themselves for their future roles in the industry. She discussed the various opportunities available in the field of data analytics , salary structure for data analysis post and to what extent they can reach in their professional career. she also highlighted the skills and competencies that the industry look from the freshers. She highlighted the skills and competencies that the industry looks for in the freshers while hiring them. She focused on having the right attitude, communication, body language and approach while attending the interviews. The session concluded with internship and career opportunities that her company had for the MBA students. The session was interesting and engaging for all students and most of them interreacted enthusiastically.

She guided the fourth-semester MBA students on the important requisites that should be followed while attending the first interviews in campus placements. She emphasized on the importance of learning curve for freshers. The session had been highly engaging with high level of student interaction and good feedback about the take aways of the session.

The session was ended by vote of thanks delivered by Dr. Ruchi Gupta. She summarized the highlight point discussed by the speaker of the session. She also thanked Dean of RBS for her support and motivation in conducting these program. She expressed her heartiest gratitude to the management of REVA University for their ongoing support and facilities in encouraging such student-centric events and activities. Alumni and students are our core and most valued elements and having industry-academia interactions through these interactive sessions between Alumni and the present batch of students to inspire and benefit both is the most important purpose of our educational curriculum.
