Action Taking Report

Date:19/09/2018

A meeting at the School was held to discuss the provisions to be made for slow and advanced learners and to formulate the adapted teaching methodology.

Action Taken for Slow Learners:

1. Extra Classes:

List of Courses to be offered:

- i. Highway Engineering
- ii. Soil mechanics and foundation engineering
- iii. Design of masonry structures
- iv. Town planning and country planning

Note: The classes will be offered to the Slow learners, during non-teaching working days. If there is any change in the working status of any Saturdays, the schedule will not be applicable.

2. **Teaching Methodology:** The lectures were supported with advanced visual modes of teaching and learning (animations, adaptive learning methodology) in order to boost the learning capabilities of these students. Extra initiatives were taken up to regulate their performance metrics through regular assignment and quiz sessions.

Action Taken for Advanced Learners:

The students who have attained advanced learner level were motivated to learn the advanced courses, in order to enrich their skills.

Course Details: Preparation for competitive exams.
