Dear Sir,

ISRO has taken up a major initiative of "Space based information support for Decentralised planning (SIS-DP)" which aims to empower Panchayati Raj Institutions (PRIs) and stakeholders for participatory decentralized planning process at gross-root level in the country. As a part of this initiative, satellite images as well as a set of thematic maps have been generated for entire country. ISRO has developed a smart phone based mobile application and Bhuvan Panchayat portal to enable geo tagging of Panchayat level assets. Academic Institutions comprising experience faculty and enthusiastic youths in the country has shown interest to support this social endeavor of geo tagging of Panchayat level assets (Asset Mapping) under the ISRO's new project on "Empowering Panchayati Raj Institutions Spatially (EPRIS)".

We at ISRO are pleased to inform you that your Institute **(REVA University Kattigenahalli, Yelahanka Bengaluru-64)** has been selected for taking up the asset mapping of **50 Panchayat of Mandya district, Karnataka State**. You are requested to complete the activity within 3 months as per MOU. For effective monitoring, you are also requested to provide monthly progress report as per enclosed template.

With kind regards

Yours sincerely,

(Chief General Manager, RCs, NRSC)

ISRO BHUVAN ASSET MAPPING

E-mail conversation

The screenshot shows an Outlook web interface. The main content area displays a forwarded email from Divyavani S. S. dated June 12, 2017. The subject is 'Payment to Academic Institutions under EPRIS- Reg'. Below the forwarded message, there is a table with the following data:

S.No	Name of Academic Institution	Amount Transferred (In Rupees)
1	REVA University	100000.00

The table is partially highlighted with a yellow box. The email interface also shows a folder list on the left and a taskbar at the bottom with various open applications.

About ISRO-BHUVAN EPRIS

ISRO has developed an online Portal - Bhuvan Panchayat (www.bhuvan-panchayat.nrsc.gov.in) under the project 'Space based Information Support for Decentralized Planning (SIS-DP)'. In order to utilize the Portal for decentralized planning by Panchayati Raj Institutions (PRIs), ISRO has initiated a new project called **Empowering Panchayati Raj Institutions Spatially (EPRIS)** with the goal to empower PRIs with the space-based inputs towards resource-based and integrated spatial developmental planning of rural areas in a user-friendly enabling environment. To utilize the Portal for developmental planning at Panchayat level, an Asset Directory of existing assets is prepared so that one can assess the gap area and plan for new assets.

Considering the efforts toward creation of Asset Directory at Panchayat/village level, a participatory approach through crowd sourcing is followed. The assets can be spatially mapped by any registered citizens or Panchayat Raj Institution (PRI) representatives. However, to distinguish the assets mapped by the citizens and PRI representatives two different presentation schemes are being followed. Also the assets mapped by a citizen can be validated by PRIs of the respective region and the appropriate presentation scheme will be applied.

About ISRO-BHUVAN ASSET MAPPING PROJECT by School of ECE

National Remote Sensing Centre(NRSC) , ISRO has granted permission for 50 villages in Mandya Taluk to be taken up by School of ECE, REVA University. In this direction, MOU is signed between NRSC,ISRO and School of ECE,RU on 5th May, 2017.

The event was planned on 5th June, 2017 to cover 50 villages in Mandya Taluk in cooperation with 11 faculty members and 67 students.

Prior to the visit on the scheduled date, a detailed survey was done by Prof. Ravishankar R D and Prof. Sunil M D, in order to get the required permission from the higher officials and also to obtain an overview about the route.

The whole team(67 students divided in 10 groups led by 1 faculty member each, detail given below) started at 7 O'clock in the morning from REVA campus, reached Mandya town around 10:30 am and afterwards with the local transports arranged from town for the villages, they conducted the asset mapping extensively for the assigned villages and came back to Bangalore only by 11:30 pm at night.

This was a massive project planned to be executed in 50 villages within a stipulated time of 1 day and it has been executed very efficiently and neatly by all the 10 groups despite heavy rain in most of the areas on the day.

A total of around 600 assets for all the 51 villages have been mapped into BHUVAN Panchayat Portal.

The feedback from the faculty members as well as the students about this project is very encouraging. The students got a real-life experience about the infrastructure and facilities available in the villages of our country. They were astonished about the lifestyle of the villagers.

On behalf of Asset Mapping team, I would like thank our **beloved Chancellor Sir Dr. P. Shyama Raju** for providing all facility and support to conduct this exceptional event. We also thank our **Vice Chancellor Sir, Dr. S. Y. Kulkarni** for initiating this proposal. I also thank our beloved and dynamic **Director School of ECE, Dr. R.C. Biradar Sir** for his constant support and guidance for successful execution of this project.

I thank **Dr. Rajeev, Scientist, ISAC, ISRO** and **Dr. P Sathyanarayan, Scientist, NRSC, ISRO** for their valuable guidance towards implementation of this project successfully.

Also I would thank **Registrar Dr. M. Dhanamjaya, Director Planning and Placement Dr. N. Ramesh** for providing all the necessary support in conduction of this event.

Last but not the least I would like to thank **all the faculty in-charges as well as the students** for their dedication and contribution for this massive event.
