Report on NET-Training Programme For M.Sc Chemistry students:

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, will be conducting add on programmes on Spectroscopic techniques, Electrochemistry and their application in material characterization & Synthesis and characterization of nanomaterials for II Semester 2019 batch M.Sc. students between 06-10-2018 to 22-12-2018 & every 2nd and 4th Saturday in the classroom, Science block.

Outcomes of this lecture:

1. Initiates and creates awareness to the students towards the Research opportunities in India.
2. Motivate the students to prepare for a competitive exam.
3. It has shown the direction on how to create a road map to the upcoming competitive exam & research field.
4. Syllabus discussion, basic concept, importance of dedication and patience to achieve government job.
