**Resource person:** Asso. Prof. Kiruthika selvi KJ, Asst. Prof. Grandhi Gopisainath, Asst. Prof. Kokil

**Venue:** Computer lab 1

**Semester:** 7th Semester

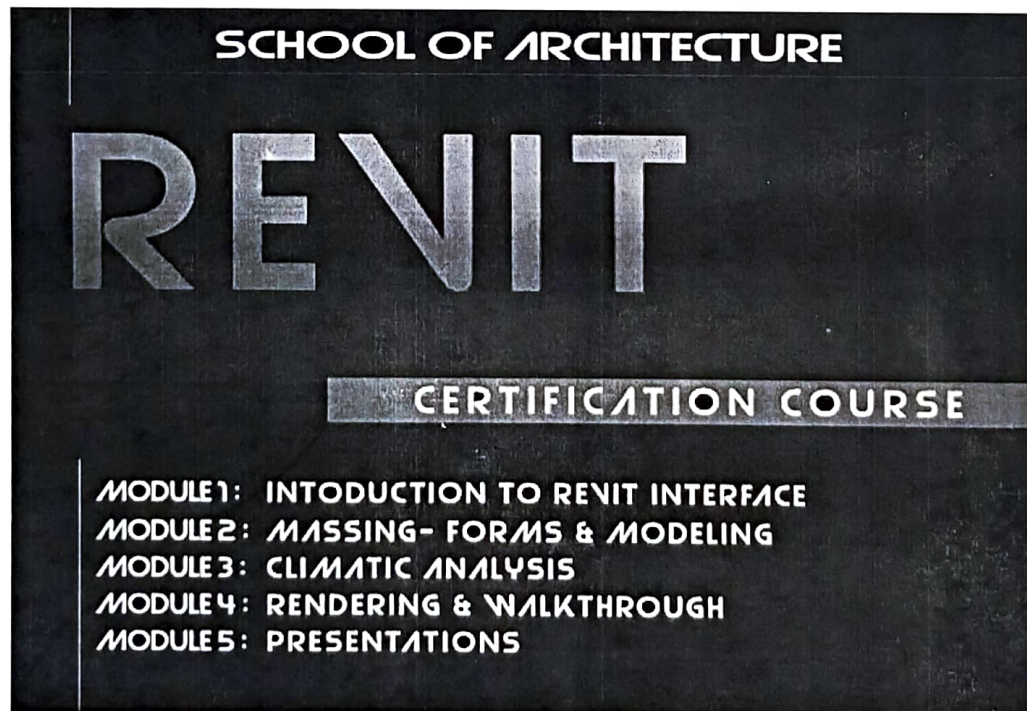

**No. of Students:** 77

**Dates:** 29<sup>TH</sup> – 30<sup>TH</sup> OCT 2021 & 12<sup>TH</sup> – 13<sup>TH</sup> NOV 2021

As a part of Advanced software course, School of Architecture conducted a workshop for the 7<sup>th</sup> semester students on Advanced Revit Software. The aim was to introduce the Massing component through the latest version from Autodesk Revit software and completed the 32 Hours of workshop.

The concept of computation in design can enhance a student level approach to perceive 3D form and directs them towards exploring new ideas from starting a project, how to use the massing, presentation and rendering. Students achieve to develop a model of their architectural design project and residential project with detailed furniture layout which can perceive a sectional, Elevation and rendered views.

Students learnt the application of Conceptual Massing/Modelling tools like Extrusion, Revolve, Sweep and Solid Blend and developed their skills with sample projects Hands-on. These effective techniques generously helped them visualize a new way of interpreting 3D geometries for their design projects.
